

# # 835 Retroreflective Tape

**DESCRIPTION**

Retroreflective sheeting in roll form on a liner paper, screened in various colors and coated with a permanent pressure-sensitive adhesive. Engineering Grade. 7 year durability.

**FEATURES**

- Meets L-S-300C, reflectivity 1, class 1; seven year outdoor life rating. Ink receptive. Fungal/chemical resistant.
- Available in six solid colors: Silver (white), yellow, orange, blue, red, green.

**APPLICATIONS**

- Barricades, graphics, traffic and commercial signs.

**PHYSICAL PROPERTIES**

Tape Thickness	6.8 mils (0.175")
Liner Paper	80# (not lay-flat)
Tensile Strength	11 lbs. per inch width
Adhesion	70 oz. per inch of width (90° peel test)
Application Temperature	Above 32°F
Durability Tape	7 years
Durability Inks	Varies by color, UV, latitude, ect.
Gloss	96 (glossmeter 85°)
Elongation	5%

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
